### Organisational background

Established in 2003, Malaria Consortium is one of the world’s leading non-profit organisations specialising in the comprehensive prevention, control and treatment of malaria and other communicable diseases among vulnerable and under privileged populations. We increasingly find our work on malaria can be effectively integrated with other similar public health interventions for greater impact and therefore expanded our remit to include child health and neglected tropical disease interventions.

We work in Africa and Asia with communities, governments, academic institutions, and local and international organisations, to ensure effective delivery of services, which are supported by strong evidence.

Our areas of expertise include:

- disease prevention, diagnosis and treatment
- disease control and elimination
- systems strengthening
- research, monitoring and evaluation leading to best practice
- behaviour change communication
- national and international advocacy and policy development

### Country and project background

The Nigeria Country Office in Abuja, started operations in 2008, through the DFID/UKaid funded Support to National Malaria Programme, SuNMaP (2008 – 2016). The office had presence in 23 states of the country and has managed at various times, about 15 programmes and projects. It follows the mandate of the parent organization in Nigeria and has been working specifically in the following areas:

- Malaria control/elimination
- Integrated community case management (iCCM) for malaria, pneumonia and diarrhoea

- Nutrition
- Neglected tropical diseases (NTDs)

Malaria Consortium is a sub-recipient for the new grant of the Global Fund to Fight AIDS, Tuberculosis and Malaria (GF) under the National Malaria Elimination Programme (NMEP) and Catholic Relief Services as the principal recipients.

The goal of the grant is to contribute towards reducing the malaria burden to pre-elimination levels and bringing malaria-related mortality to zero by 2025 in Nigeria.

This project aims to achieve five objectives while delivering high quality malaria services in 14 states (MC implementing in 5 of the states – Kano, Kaduna, Jigawa, Niger, Yobe, and iCCM only in Jigawa and Niger) through improved service delivery mechanisms, demand creation and health system strengthening strategies.

- Improve access and utilization of vector control interventions to at least 80% of targeted population by 2025.
- Ensure provision of chemoprevention, diagnosis and appropriate treatment for 80% of the target populations at risk by 2025
- Improve generation of evidence for decision making and impact through reporting of quality malaria data and information from at least 80% of health facilities (public and private) and other data sources including surveillance, surveys and operations research by 2025.
- Strengthen coordination, collaboration, and strategic partnership to promote efficiency and effectiveness of malaria control activities towards achieving at least 75% improvement from baseline using a standardized OCA tool.
- Improve funding for malaria control by at least 25% annually through predictable and innovative sources to ensure sustainability at federal and sub-national levels
