

Seasonal Malaria Chemoprevention Project (SMC)  
Sokoto State

## Town Announcements

### 2 Days Before Distribution

1. I greet you the people of our community. The Sokoto state government and partners are going to start the distribution of medicines for children under five to prevent malaria in the rainy season. The distribution will start in the next two days.
2. In some areas the distribution will be at fixed points, or the chief's house in your neighbourhood. In other areas it will be done by worker moving from house to house.
3. We are calling on all parents and guardians to bring all children to come and receive the medicine for prevention of malaria and the well-being of our children

## Town Announcements
